3. Administer Neutron Activation tests to the bullets removed from Weisel and RFK.
4. Compare the bullets removed from Weisel and RFK and the bullets in Exhibit 55. (An independent board of ballistics experts should do this.)
5. Make available for study the ten-volume report of "Special Unit Senator".

II. DETAILS ABOUT BALLISTIC ISSUES

2. Where are Wolfer's notes and/or photomicrographs to support his conclusions about the bullets?
